§ 7 Revision complete, but requires

Cleared up a lot of miscellaneous

Swanson who had edited (and then returned) the Introduction, and chapters 1, 6, and 7 had made a long typewritten report & comments, which Littell was somewhat embarrassed to keep me from seeing, so it must have been rather adverse. Our discussions however were quite amicable and settled many doubtful points of context and arrangement. Swanson left before noon and we went to lunch at the Faculty Club.

That evening I looked over some of Swanson's editing and was considerably disturbed to find the large number of changes he had recommended that did not involve the correction of errors and/or obscurities.

Arrived at Oakland on time and went to the Shattuck Hotel. Called Hittell and made arrangements to meet him at ~~1:50~~ 1:50 PM. Went to the U.C. library and worked until 11³⁰. Called on Stebbins at MVZ but he was out.

Went to the U.C. Press with Hittell at 1³⁰. First called on Fruege who told me that John Jennings would hereafter handle all matters having to do with my book hitherto handled by Hittell. Hittell was away too much. Design would be handled by Mrs. Rita Carroll. We spent the rest of the afternoon discussing many aspects of the book - style, schedule etc. Very profitable discussion.

Spent the evening rereading chapter 6

This evening Rita Carroll called from SF and told me of her recent estimates on the book, now 1538 pages. She said typesetting on chapters 5 and 6 should begin on next Monday. We also discussed design briefly. There ~~is~~ have been no important changes in the decisions to date.

Arrived at Oakland an hour late. Kept a taxi waiting for $\frac{1}{2}$ hour, while I changed my return reservation from Friday night to Thursday night. Had to take a compartment to get anything. Later it proved to be fortunate that I had done so because of the heavy Holiday travel.

Called Amy J. and Donnie upon arrival. Then worked in my room at the Delia Motel on Chapter 13 until 4 P.M. Then went to 55 Fifth av. Found Allan sick in bed, and Laura Jean not much better.

Talked to A.J. about the vignettes.

Left at 9³⁰. Made unusually good connections and got back to the motel about 11.

appointed to consider a change in the by-laws to avoid the kind of protest that had been entered this year by Mayr et. al. He said however that this year's election would stand, so I presume I am president for 1955.

MONDAY, DECEMBER 27, 1954

361st
Day

St. John, Evangelist

4 Days
to come

Spent almost the entire day at the
Venom symposium. The attendance was
small and disappointing. Met Pollard,
Porges, Mrs. Buckley, Dr. Criley, Stahinke,
Tinkham and many others. Most of the
foreigners who had expected to come
were not there; financial troubles, so it
was said. However I did meet Fraenkel-Conrat,
his brother-in-law Slotka, Goncalves,
Trethewie from Australia and several
others. Porges was a rather poor
chairman.

Had a sandwich lunch with Donnie
and Brattstrom.

There were few present when my
paper was read. Only one question was
asked.

Some of the papers were good; some
fair or too technical (biochemical) for
me.

Borrowed Minton's paper and took
it back to the motel for making notes.

In the evening went to an interesting
lecture on South Africa by Coates.
Very depressing as to the future. Met
Stinkard of the SSZ Society who
said that a committee was to be
(see opposite page)

Holy Innocents

3 Days
to come

Donnie called for me at 8 ⁴⁵, a great convenience.

First went to the venom symposium and heard several papers; then to the SSZ meeting where I heard Reimer on Taricha, Savage on Xantusia (he has named a genus Klauberina after me -- had not previously known of this), and Brattstrom on Crotalid phylogeny based on osteology. Then took lunch with Stebbins and his uncle; then to the Biol. Library for a few items; and finally to the meeting of the Herpet. League for a battle between Stahleke and Shannon as to the desirability of using cryo-therapy. This was quite better and personal. Then back to the venom meetings.

Donnie took me down to the motel. Had expected to go to a dinner at Fisherman's Wharf in SF. but through a mix up I failed to arrange for transportation and so stayed home.

WEDNESDAY, DECEMBER 29, 1954

✓ 363rd
Day

2 Days
to come

Dominick called for me as usual at 9⁴⁵. Jack Hryneman was along. First called on John Jennings at the U.C. Press and talked over a variety of matters. They expect to have a publication schedule available shortly.

Spent the rest of the day at the Venom Symposium. Usual small attendance. Some papers good; some uninteresting.

In the evening went first to the Harp. League dinner. Saw Camp and Mush Attatt. Woodbury presided. Stearns talked on Galapagos iguanas.

Then went to a Western Society of Naturalists meeting where Hubbs made a fine talk on hybridization in fish.

Chuck Shaw drove me home at 9³⁰—

Was at the venom sessions all day. The Shannon - Stahnke battle was renewed. It was very dreary the second time around.

The paper ~~g~~ on available antivenoms listed a lot I had never heard of, Mrs Buckley promised to send me the list upon her return.

The panel discussion was fair and was recorded. I talked on the taxonomy of the South American rattlers; also on the need for aiming the North American crotalic antivenoms at atrox. Criley said they were doing this.

Glotta told me things were tough in Brazil because of politics and personalities. He would like to get a job up here. They think it will be worse than ever at the Instituto Butantan with de Amaral in charge. He sounded very discouraged. He was hard to understand because of a strong accent.

It was a pretty good day.

Took a taxi to the 1st and Broadway station in Oakland and had dinner at Bow-Bells.

FRIDAY, DECEMBER 31, 1954

365th
Day

Arrived at San Diego at noon through the help of a red cap that got me through the line. I think many people were left. Gg not at the station but found her there when I went back in the taxi to pick up my hat and coat, which I had forgotten.

Spent most of the afternoon at the office catching up.

At a New Years party at Cavenees in the evening.
